Subject: Microsoft Settlement

Dear Judge-

What Microsoft is attempting to do behind the backs of Americans, is an atrocious attempt at violating even more anti-trust laws. Has Microsoft ever played this game of capitalism/competition fairly? I doubt it.

This would not only be bad for the computer industry and all other computer companies (like Netscape) but would be terrible for our economy. This would create a rise in unemployment, which is the last thing that this country needs, right now especially, with almost no jobs available.

Do not let this pass; do not allow Microsoft to rule the world; do not eliminate competition. America needs you to stand up against this rising dictator, that is Microsoft.

Thanks.
